Health Resources and Services Administration  
Community Access Program

Suzanne and Walter Scott Foundation  
Omaha Award

## How to use the “Healthcare Resource Guide for the Medically Uninsured”

### SECTION 1

- Contains **separate flow-charts and tables** for individuals based on **age and Nebraska or Iowa residency**.
- After finding the appropriate set of charts (1 – 4), look next for the charts pertaining to **either primary care (A and B), or specialty care (C)**.
- You may be referred to other pages in SECTIONS 2 or 3.

### SECTION 2

- Contains **tables listing specific resources for primary care, mental health, or emergency services** which might be of value in counseling the low-income or uninsured
- This is not a complete listing of community resources. Please refer to the United Way Community Resource Directory, **First Call for Help (444-6666)**, or **United Way Directory on line ([www.uwmidlands.org](http://www.uwmidlands.org))** for other resource needs.

### SECTION 3

- Contains **tables listing income guidelines** for various Nebraska and Iowa publicly funded programs
- If client’s income is slightly above this level, call, or have the client call to verify eligibility, as requirements are often more complex than is stated in these tables.

### NOTE

- These pages may be reproduced as needed.
- Updates to the resource guide will be provided to all organizations who receive the resource guide and participate in a brief orientation.
